

USE COMPRESSED AIR TO RUN CAR

Charles Cooper Promises to Revolutionize Auto Business Through His Invention.

BUILD MACHINE IN DAVENPORT

Company is Organized and Incorporated for \$200,000—Stock Held By Local People.

How would you like to own an automobile that didn't cost you anything for power? It seems too good to be true, but the fact remains that work was started today in Davenport on the manufacture of a machine which its inventor claims will revolutionize the entire auto business, since it will be operated by compressed air.

On March 16 of this year, Charles Cooper, Kansas City, was granted a patent on his invention. He has organized the Cooper Compressed Air Motor Machine company, under the laws of Arizona, and incorporated the same for

\$100,000, practically all of the stock being held by tri-city people.

It is at the Fletcher Auto Repair company's shop, 418-422 East Second street, Davenport, that the work on the model is being done. Mr. Cooper is here supervising the work. There are three means of securing power which are utilized in this new car: compressed air, leverage purchase power and vibration.

The machine is "cranked up" on the side, instead of from the front, although the company expects eventually to use an electric starter. When the car is cranked, this winds up a spring which releases 50 pounds of air in the compressed air tank, which puts the car in motion.

Through the weight of the body of the car and its occupants on the springs, sufficient vibration is secured to set other parts of the machinery going. "There is no reason why automobiles should not be owned by everyone," declared one of the promoters of the company today. "They will be when it is found out that cars can be operated without cost for power. Our car has no batteries, no engine, no spark plug, or any other features which are found in the ordinary machine. The same principles which we are advocating can be used in motorcycle construction, as well."

END RIVER WORK BY DECEMBER 1ST

Will Begin Next Week to Abandon Projects Near the Head of Navigation On Mississippi.

FLEETS GO TO WINTER HARBOR

Le Claire Canalizing Job Will Be Continued Through Winter, Excavating Started Soon.

Work on the improvement of the upper Mississippi river will be ended for the season by Dec. 1, it was announced at the United States engineers' office in this city today.

Next week the work in progress at St. Paul and for some distance down the river will be halted and the fleets will be placed in winter quarters. Gradually further down the river the construction work will be abandoned and the equipment of the government placed in harbor during the cold months.

It has been the custom of the government engineers to begin the preparations for stopping operations between Nov. 10 and 15. In the north there is particular danger, if this is not done, from ice, and the aim has always been to get the fleets in winter harbors before the river started to freeze.

Work at Le Claire. There are some projects, however, which will continue during the winter. The work on the cofferdam at Le Claire, 14 miles up the river from Rock Island, will not be stopped during the winter, unless this section is visited by unusually severe weather. Major G. M. Hoffman announced today.

As soon as the water is pumped out from the cofferdam, dredges will begin excavating and the rock taken from the bed of the river encased by the dam will be placed on as to protect the walls from floating ice in the spring.

Although hampered somewhat on all parts of the river by high water during the early summer, considerable work was accomplished during the past river working season.

At 10 o'clock this morning a live-passenger auto, owned and driven by J. T. Myers, skidded and crashed into

one of the light posts in front of Allen Myers & Co. store in the 1800 block. The radiator of the car was damaged.

GENESEE STAR IS TO BE A PLOW BOY

Believing that "the early bird catches the worm," Archie, at rather Archibald Weiner, celebrated outfielder of Geneseo, placed a bid for a berth on the Moline Three-Eye team for the coming season. The Moline baseball officials, laboring under the impression that "a bird in the hand is worth two in the bush," granted Archie his request. As a result an official document of contract of the Moline baseball club now bears the signature of the speedy Geneseo lad.

Weimer is an outfielder and during previous seasons while capering about in this vicinity has gained the high esteem of local baseball heads as well as the fans, and to say that he is a celebrity in his own home town is putting it very mildly.

Last year he took a dive into Three-Eye baseball waters clad in a Moline uniform. It was as such that he impressed the fans with his ability. His footwork and fielding cleverness were ever apparent, but unluckily so was his poor batting eye, not because of his inability to connect with the bat at opportune moments, Archie was unconsciously related to the "bums." Later as manager of the baseball team at Strawberry Point, Iowa, he worked hard the remainder of the season to overcome his only weakness, and now he returns to the plow boys full of confidence as to his ability of carrying a regular place on the lineup in the spring tryout.

POLICE NEWS

Two men giving their names as Richard Holman and John Werenelle were sentenced to the county jail for 30 days in police court today. They are alleged to have raised a disturbance at the second hand store conducted by Sam Fryer.

James Hamilton, colored, arrested by Patrolman Berry paid \$5 and costs today on a charge of having assaulted his wife. She showed the court a cut on her wrist. Police also took a revolver from Hamilton.

W. T. Brooks of Alledo, picked up here yesterday, was sent to the county jail for 10 days in default of a fine of \$50 and costs assessed him on a charge of disorderly conduct.

C. C. Marquis was fined \$2 and Walter Jackson \$1 on charges of disorderly conduct. They were arrested by Patrolman Kinney.

RIESS DRUG STORE OBTAINS AGENCY

Well Known Rock Island Drug Firm to Demonstrate Tanlac the "Master Medicine."

Sale Starts Saturday.

The announcement yesterday that the Riess drug store had been awarded the agency in Rock Island for Tanlac, the "Master Medicine," was received with the deepest interest by thousands of local persons, irrespective of rank or station, who had been watching closely to ascertain who the fortunate dealer would be who would be given the exclusive rights to sell this excellent preparation in this city.

W. B. McPherson, the Illinois "Tanlac man," who has been in Rock Island several days, made the final arrangements with A. J. Riess yesterday.

When discussing Tanlac and its curative powers with a group of gentlemen who called on him last night, Mr. McPherson said:

"Ninety per cent of all disease is caused by derangement of the stomach. Gastric juices become weakened and fail to dissolve and assimilate the food. Consequently the food lies there in a half digested state, producing gases which cause swelling of the abdomen, nausea, and indigestion. In time these gases become poisonous and attack the weakest parts of the body. If the mucous membrane is attacked, catarrh is caused. If the kidneys are affected, uric poisoning, which eventually results in rheumatism, sets in. In some cases the nerve centers are attacked and results in a general breakdown."

"Tanlac, the 'Master Medicine,' owes its wonderful success to the fact that it contains a heretofore unknown digestive agent, which was discovered by the Himalaya mountains by a German scientist. The potent digestive properties of this ingredient make Tanlac the most powerful of all digestives, thereby strengthening the weakened gastric juices and causing the digestive organs to perform their proper functions. When this has been accomplished nature comes into her own, and such diseases as rheumatism, catarrh, nervousness and impure blood rapidly disappear as thousands of people are daily testifying throughout the city."

While in Rock Island, Mr. McPherson will convince the public that Tanlac is all that hundreds of thousands of our best Americans, who have taken it, claim it to be. In the meantime he will explain Tanlac at the Riess drug store beginning Saturday morning.—(Adv.)

SOPH BANQUET IS NOT INTERRUPTED

Due to Truce With Freshies, Augustana Second Year Folks Enjoy Their Annual Spread.

IS HELD AT HOTEL BLACKHAWK

New Officers Are Announced at the Feast, Clarence Samuelson Being Elected President.

Augustana sophomores enjoyed their annual banquet uninterrupted at the Blackhawk hotel in Davenport last night. The freshmen gave the second year folks no trouble whatever, due to the truce recently declared between the classes.

Forty were present at the spread and the banquet rooms were beautifully decorated in blue and white of the class and blue and gold of the college. The feast started at 8 o'clock. Clarence Samuelson, president of the class, and a committee composed of Bob Forsling, Jacob Rimmerman and Paul Randolph were in charge of the affair and made the arrangements for the banquet. The president presided as toastmaster.

Those who added to the entertainment with toasts were:

"The Victory Without an Effort"—Vernie Erickson.

"Athletics for the Girls"—Blanche Carpenter.

"Extemporaneous"—Harry Olson.

"What It Is to Be a Hero"—Rudolph Hanson.

"Class Hostilities"—Truman Steele.

"Extemporaneous"—Edgar Johnson.

"Inspiration"—Carl Swanson.

"Artistic Actions and Gesticulations"—Karl H. Kalquist.

"Our Guardian"—Lael Johnson.

"Response"—Professor S. J. Sebold.

Jacob Rimmerman.

Officers Announced.

The officers of the class, kept secret until the banquet last night, were announced as follows:

President—Clarence Samuelson.

Vice president—Lael Johnson.

Treasurer—Adolph Faust.

Guardian—Professor S. J. Sebold.

Class colors—Blue and white.

Class flower—White rose.

MOLINER WINS A GOOD PROMOTION

C. O. Montgomery Goes to Beardstown—Rock Island Man to Succeed Him as Manager of Office.

In the way of well earned promotion C. O. Montgomery, for the past three years commercial manager of the Moline office of the Central Union Telephone company, has been placed in full charge of the Central Union exchange in Beardstown.

Mr. Montgomery left Moline this morning for Springfield, where the district manager will make the final arrangements for the change. After completing his business in Springfield, Mr. Montgomery will go to Beardstown on a visit to his new office there.

Early next week he expects to return to Moline and arrange for the removal of his family to Beardstown to take up a permanent residence.

A. J. Beverlin, manager of the district, stationed at Rock Island, stated that the change would mean a fine promotion for Mr. Montgomery, as he would have complete charge of the Beardstown plant and its operations.

D. M. Smith of Rock Island, for many years connected with the Central Union's offices of the tri-city and well known in Moline, will succeed Mr. Montgomery as manager of the Moline office.

FENCERS CLASH AT BIG STAG TONIGHT

Opening the winter social events of the season, a large attendance is expected at the feature stag party to be given at the Moline Y. M. C. A. tonight.

An extraordinarily interesting and novel program has been arranged for the evening and all men and young men are heartily asked to attend. The program as announced follows:

Fancy Gymnastics—Smallest Giants in Illinois, discovered by E. E. Oldeman.

Indoor baseball—Moline Tool company vs. Moline Heating and Construction company.

Boxing—William Pfaff vs. T. M. Gordon.

Elephant work—Moline Athletes.

Boxing—Williams vs. Mezer.

Fencing—Howard V. Schmidt.

The final windup of the program is expected to prove the real sensation of the evening, as both Howard and Schmidt are well versed in the art of using the foils. The Pfaff-Gordon match is also likely to prove a feature.

GENERAL FUNSTON SAYS BORDER DANGER IS OVER

(Continued from Page One.)

war department says, in view of existing orders, I have not fired on the contending parties, considering the fact that some stray bullets are being struck on the American side and the men of the Seventh Infantry are wounded. This was not done because of the evident fact that both commanders were doing all they could to prevent injury to Americans.

"The principal faults were committed by Calles' men and I could not in

One Year Free

KODAKERY the helpful little monthly magazine of things photographic, is given one year free to every purchaser of an Eastman camera. To those who receive an Eastman camera from the Central Trust & Savings Bank for deposits of \$5.00 or more during the present campaign KODAKERY will also be given for one year upon request. Bring in the camera and we will attend to this for you.

We shall also be glad to assist you in any way possible to make good pictures with this camera. We are at your service today, tomorrow, anytime.

THE ONLY SHOP IN THE CITY DEVOTED ENTIRELY TO THINGS PHOTOGRAPHIC.

1619 SECOND AVE. **Robt. L. Hunter** ACROSS THE STREET FROM THE ARGUS.

fairness have opened fire on Villa without treating Calles the same. For example, yesterday while Major Hay and other officers were 200 yards north of the boundary and 800 yards from the east flank of Calles' trenches, they were deliberately fired on from them and nearly hit. Also yesterday a detachment of the Ninth cavalry 1,200 yards in front of the west flank of Calles' trenches and at least two hundred yards north of the boundary, was fired on there first by machine guns and then six times by artillery. Further, this afternoon, a customs inspector at the same place was fired on. Representations have been made to Calles and he has expressed regret and given necessary assurances.

Villa Recuperating Forces.

"The whereabouts of Villa and his main force is unknown. There are persistent rumors that he is at Caballeros, 18 miles south of here, where there is ample water, recuperating his men in order to return to the attack. But a small detachment of his forces, with some wagons, has reached Naco and is purchasing food, while an officer patrolling east from Naco reports seeing a camp of about four thousand across the boundary from Ocoingo. The Villa force consists of about twelve thousand men, 26 guns and an unknown number of machine guns. His men suffered terribly during operations here from thirst and hunger, but their spirit is shown by the fact that less than a dozen deserted. All women, children and camp followers usually to be found with a Mexican force were left at Casas Grandes, and he has with him nothing but fighting men."

To HARRIS CURTANZA.

Douglas, Ariz., Nov. 4.—Villa soldiers surrendering to Calles' soldiers yesterday declared today that since his defeat at Agua Prieta, their former commander was planning on distributing his forces in small bands to harass Carranza generally and adopting guerrilla warfare, in order to get much needed supplies of corn and flour. Five hundred of his men are said to have reached Naco and 4,000 troops, it is said, were seen yesterday struggling along the dusty roads.

General Calles is said to have cut off reinforcements enroute to join Villa. General Urbana was believed to have escaped the net with 1,500 men, having gone around south and headed westward to join Villa, either at Naco or on the way to Guaymas and Mazatlan.
